KINETIC

NEW Kinetic mobile system - p2-3

IKON

Ikon shelving, an evolution - p4-7

SHELVING SPECIALISTS

KINETIC MOBILE SHELVING SYSTEM

The mobile shelving system by Probe has been totally re engineered from the ground up making it easier to use and quicker to install. The brand new system incorporates safety features including a ‘true’ non slip floor and illuminated hand wheels indicating when the unit is in operation.

KINETIC MOBILE SHELVING

A completely freestanding mobile shelving system, no drilling, no fixing down, no messy ground or civil works. It will not damage or disturb your carpet or floor covering in any way.

HEIGHT ADJUSTABLE ANTI TILT TRACK

The unique easy access adjustment ensures a level track on uneven floors and allows easy adjustment over the life of the product. This track offers an ultra safe anti-tilt mechanism and concealed end stop for safety.

INTEGRAL FLOOR

Floor panels are now in modular sections and are wear resistant providing a secure, rigid and safe platform to walk on.

NEW ILLUMINATED HANDWHEEL

Super bright LEDs illuminate when the motion sensors detect the wheel is in use. They stay lit for a period after the wheel has stopped, this safety feature allows others to see that the unit is being used.

PROBE KINETIC SHELVING

Below are two examples of shelving in the same area. The New Probe Kinetic Mobile Shelving System increases shelving by as much as 100%.

UP TO 100%
SPACE
SAVING

IKON SHELVING

This shelving system is an evolution of our best selling Mistral shelving. The shelving accessories are fully compatible* excluding door sets as the shelving heights have been optimised for efficient storage of contemporary storage products.
